

# Suspended Net Ceilings LAVINET

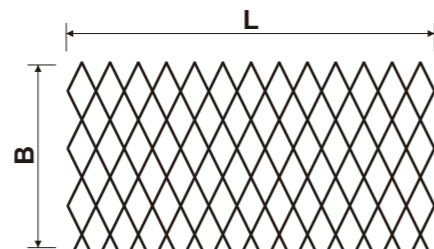

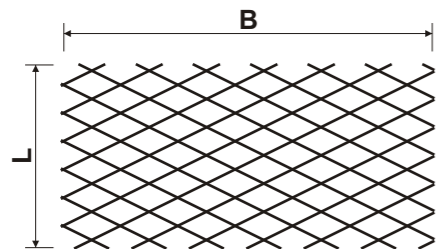

LAVINTON offers you ready ceiling panels for standard suspending systems like 600x600 mm, 1200x600 mm or panels in measures specified by customer. Expanded net panels can be powder painted according customer RAL color code or deep galvanized. Panels of pregalvanized steel or aluminium and copper are also available. The biggest length of panel can be 2 m.

## LAVINET ceilings have plenty advantages

- Small weight 2-6 kg/m<sup>2</sup>
- Simple and convenient montage
- Nice and airy outlook
- Good accessibility to technical systems behind the panels
- Endless color variety for interior

When ordering LAVINET ceiling panels the direction of net diamonds must be shown.
